

# DEVELOPING THE SKILLS OF IT TRAINERS FOR SENIORS

<https://slowlearning.eu/>

## TRAINING OF IT TEACHERS FOR SENIORS

Partners of Slow Learning project are proud to report about the upcoming training events for IT teachers for seniors that will be implemented in next couple of weeks!

Partners have successfully overcome the current epidemic situation and prepared hybrid versions of IT trainings that will be implemented in all partner countries. Each organization invited 20 IT teachers or mentors that will participate in the training, therefore we will shortly have 80 skilled mentors for teaching IT skills for seniors!

Training programme is available (for free!) on our project website, including e-learning platform.

Trainings will take place as follows.

- **Slovenia: 26. and 27. 1. 2022**
- **Denmark: 24.01. & 9.02.2022**
- **Greece: 07-11.02.2022**
- **Spain: 19. and 26. 1. 2022**

Training will take place in hybrid form, using e-learning platform designed specifically for Slow Learning project!

### Multiplier events coming your way!

We are also informing you about multiplier events, organized in all partner countries. Our wish is to inform interested public and stakeholders about the usability of Slow Learning training programme and also to invite as many seniors as possible to join our future educational events, where SL skilled trainers will prepare them for digital era in the most innovative and fun way!

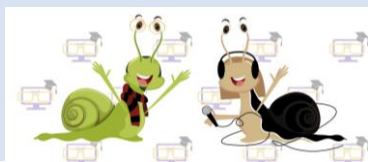

**Check our website and join us now!**

## SLOW LEARNING PROJECT

The project will make an **Impact on IT training of senior** by developing an innovative **job profile of the IT trainer** of older people based on a compendium of the most innovative and **successful practices, methodologies and tools** from a **European** perspective

### Main objectives

- Better understanding of senior expectations & needs in learning environments, focusing on IT training.
- Improved knowledge & use of pedagogical tools, new technology in educating seniors;
- Exchange of good practice among partners;
- Create the basic theoretical foundations for the implementation of education of IT to older adults;
- Get to know older adults as an extremely diverse group of adult learners for whom education is being prepared according to their needs and for them.

Project partners are [Ljudska Univerza Ptuj](#) from Slovenia, [SOSU](#) from Denmark, [p-consulting.gr](#) from Greece, [CDEA](#) and [Estrategia y Organización SA](#) from Spain.
