

Win On Line | Newsletter No.2 March 2022

[WinOnLine](#), an Erasmus+ KA2 European project, which started in October 2019 has managed to accomplish most of the aims set and is to be completed by the end of May 2022

in the prime period of its operation on the first Newsletter published [here](#).

Training & Mentoring Courses for women e-entrepreneurs:

After 2 Online Surveys conducted in all partner countries, seven focus group workshops and numerous online meetings among the partners, the training and mentoring courses of the project are ready, while evaluation questionnaires for both are being prepared.

The results and feedback from the outputs and activities conducted so far, contributed to a highly efficient training course with seven modules and an annex, that comprise most information required for women to enter the e-business world, dynamically and securely.

It offers a wide range of vocational guidance on how to create, maintain, run and grow an e-business sufficiently, by obtaining the most crucial skills in order to succeed.

Meanwhile the mentoring course is more of a mentor-mentee communication aiming to a career oriented, process, where mentees will be offered support, networking, and ways to obtain financial resources, contacts, and knowledge over the “e-business universe” by a skilled and experienced mentor.

Piloting of the Training Course:

Piloting Sessions will take place in all Partners-Countries in order for the training course to be tested and used by women over 40 that are interested in becoming e-entrepreneurs and start their own e-business, entering, or re-entering the labor market. After the finalization of the piloting, evaluation feedback by the participants will be summarized and the e-learning training course will be finalized.

Starting dates for the Piloting in each Country:

Spain: 14th of February 2022

Cyprus: 10th of March 2022

Finland: 28th of February 2022

Lithuania: 6th of April 2022

Italy: 28th of February 2022

Greece: 14th of March 2022

Our Following Activities:

- Piloting of the Training Course in each partner's country in order for the partners to finalize the content for the e-platform.
- Video implementation with interviews with women e-entrepreneurs in each county
