# Employment in digital era, demands many new competencies from leaders

**EULeaders, is an Erasmus+ (KA2) project, aiming to:**
foster the competitiveness and productivity of businesses and organizations, through the development of strategic e-leadership skills necessary for entrepreneurs / employers / leaders / managers, as well as VET trainers, educators and mentors, to manage their teams effectively and efficiently within virtual working environments.

## Main objectives

- Create an e-leadership model by mapping strategic e-leadership skills, competencies and approaches organizations communicate within virtual working environments.
- Identify common high-tech leadership skills' needs within virtual working environments, both at personal and strategic / organizational levels.
- Identify effective web-based tools and approaches in managing virtual working environments and teams successfully.
- Develop and assess e-leaders' strategic e-leadership skills through web-based teaching and learning approaches.
- Create a certification framework which will define both the e-leaders curriculum and the skills assessment process.

## Target groups

- Entrepreneurs / employers / leaders / managers leading teams in virtual business environments across different national contexts – prior, during and after the COVID-19 pandemic period.
- Small & medium-sized enterprises (SMEs) (tech-based and non-tech-based organisations such as ICT and multinational companies etc.).
- Non Governmental Organisations (NGOs).
- Future entrepreneurs/leaders.
- Partner organizations.
- VET trainers.
- VET mentors.
- VET training centres & other training providers.
- Chambers of Commerce and Industries.

## Project Results

- Guidebook of inclusion best practices on suitable digital working environments.
- e-Leadership Model adopted within tech-based and non-tech-based organisations.
- e-Leaders High-tech Course.
- e-learning platform for Leaders.
- Certification framework for the e-leadership skills.
