

The project

EU Leaders is an Erasmus+ KA2 project trying to tackle the problems created the last years, as Covid-19 pandemic highlighted the need of upgraded digital skills for both employees and most importantly to their leaders. Working remotely created new needs to digital tools but also to e-leadership.

EU Leaders is a project aiming to foster the competitiveness and productivity of businesses and organizations, through the development of strategic e-leadership skills, to manage their teams effectively and efficiently within virtual working environments.

Project results

During the EU Leaders' implementation, 5 project results will be developed, which are the following:

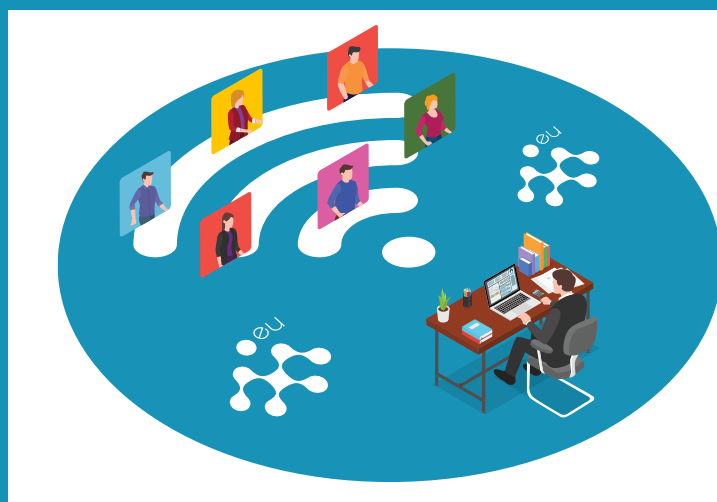

1. Guidebook of inclusion of best practices on suitable digital working environments.
2. e-Leadership Model adopted within tech-based and non-tech-based organisations.
3. e-Leaders' High-tech Course.
4. e-learning platform for Leaders.
5. Certification framework for the e-leadership skills.

Meetings

The team is meeting online every two weeks. Over 10 online meetings have been held until now...

The team met face-2-face, in Leipzig, Germany, in December 2022.

The Guidebook just landed!

We are really proud and happy to announce that our first project result is now released. Partners put all their effort and created the Guidebook of inclusion of best practices on suitable digital working environments.

The Guidebook includes examples of good practices already established at a national and European level, promoting e-strategies and e-tools organisations adopted in their daily management for ensuring the efficient virtual working environment of their employees.

The Guidebook will be available in Portuguese, Slovenian, Greek, German, and Dutch. The Guidebook is also published with the ISBN system (ISBN 978-972-789-839-8).

Don't miss!

The partnership is now creating an e-Leadership Model adopted within tech-based and non-tech-based organisations.

The EU Leaders' partnership will develop an e-leadership Model which will be targeting entrepreneurs, employers, leaders, managers who are managing their teams virtually. The aim of the Model is to identify the training needs, challenges and gaps e-leaders face when managing virtual working environments and teams.

In order to create the above, partners organised focus groups in each country, and they interviewed 60 leaders / managers in total.

Stay tuned for our next project result!

What is coming next?

- ✓ The e-Leadership Model adopted within tech-based and non-tech-based organisations (PR2).
- ✓ The e-Leaders' High-tech Course (PR3).
- ✓ Our Transnational Project Meeting in Cyprus, May 2023.
- ✓ The Learning, Teaching, Training Activity, May 2023.
