## 1st Transnational meeting

The First Transnational Meeting took place in the beautiful old Italian town of Cori from the 16th to the 18th of November. The meeting was hosted by Polygonal, which took care of the project team down to the smallest detail and ensured that the joint work ran smoothly.

As this was the first face-to-face meeting, the partners had a great opportunity to get to know each other personally. During the meeting, the partners discussed various aspects of project management and implementation, the work already done and outlined the next steps and timeline.

In particular, the final version of Project Result 1 (PR 1) was presented, which was uploaded to the DiG-Equal website shortly afterwards and whose translation into the partner languages is currently being finalised. The partnership also took special time to discuss the development of PR2. After the meeting, everyone went home with a clear vision for future work and a clearly defined set of tasks and time. We plan to have completed the entire course for adults and adult educators by the time our next newsletter is published.

# Project progress

## ✓ PR1 DONE

So far PR1 "**Sustainable Digital Adult Education Goals**" has been completed and uploaded on the project website. It is presented in the form of a methodology and an interactive database.

**"Methodology"**: a guidance framework and methodology for adult educators to support their work with low-skilled and low-qualified adults, by extending their digital classes on topics and problems related to the usage of online services and e-government by adults in Europe.

### **"Interactive Database"** :

- National legislation and standards regarding the accessibility of online resources by users;
- Existing e-government services per country;
- Guidance on national strategies for the inclusion of adults with fewer opportunities;
- List of mediating organisations that support adults in accessing online resources.

The translation of PR 1 into the partner languages is in progress and will be uploaded to the website soon.

## Next steps

Continue the work on PR 2 course development for adult educators and production of video pills accompanying modules of each e-government domain. Expecting to have the complete course finished by May 2023.

**SEE YOU AGAIN IN  
CYPRUS IN APRIL 2023!**

## 🔄 PR2 ONGOING

As to PR 2, the first draft of a **context-based course on e-government and digital skills** for low-skilled/low-qualified adults is completed and evaluated by partners. Currently, the partners are working on the necessary changes to finalise the course. At the same time, the teaching activities for a preparatory course on the context-based approach and e-government for adult educators have also been developed.
