

## Respect the past, create a future!

### A few words about the project

The i-SCHOOL project aims to increase primary and secondary school teachers' capacity to integrate cultural heritage into the educational process, through an interdisciplinary approach and the use of digital technology, as well as NFE methods.

Project's objectives are to:

- Increase the capacity of primary and secondary school teachers to integrate cultural heritage in everyday school practices via a series of digital and interactive tools and NFE methods.
- Increase knowledge and awareness of students and teachers on Europe's common cultural heritage
- Develop relationships between schools, cultural institutions, and other related organizations, in order to develop educational sessions in and out of the school setting.

The i-SCHOOL is a 30-month project funded by the Erasmus+ program. It started in December 2021 and will be completed in June 2024. It will be implemented by a partnership of 6 organizations from 4 countries, Cyprus, Greece, Turkey, and Italy.

### Introduction

We are pleased to present to you the first edition of the Newsletter for the i-school project. Through the Newsletter, we will keep you informed about the progress and developments related to the project. In this issue, we will introduce the project, its objectives, and the tools we will develop as part of its implementation in order to enhance the teaching of cultural heritage in schools. Additionally, we will learn about the first meeting of the partners involved in the project.

## Project's Kick-off Meeting

The kick-off meeting of i-SCHOOL project took place on May 12 and 13 in Nicosia, Cyprus. Partners were hosted at the facilities of the Cultural Foundation of the Bank of Cyprus. We are already working on the development of the e-learning platform, the online course and the digital game. We discussed the activities that had been carried out and agreed on the deadlines for the completion of the upcoming ones.
